PRODUCT BESCHRIJVING

Exceptionally easily operated forestry clearing saw with high performance and unique ergonomic solutions designed for full time spacing tasks. Equipped with AutoTune for optimal engine performance. Optimized transmission with the bevel gear angled 24 degrees simplifies directional felling in dense forests. Warm hands in cold, damp climate with handle heating. Easily started X-Torq engine with rapid acceleration, reduced fuel consumption and emissions. Very low vibrations thanks to an effective anti-vibration of the engine, drive shaft and cutting equipment. Easy to start with Smart Mode. Delivered with Balance XT harness.
