### GALERIJAFBEELDINGEN

## PRODUCT BESCHRIJVING

Husqvarna ST 324 has been developed for landowners who need an ergonomic, high-capacity, robust and durable snow thrower that comfortably clears large areas. It has been designed for frequent use in all snow conditions, 15-60 cm. The two-stage system, friction drive, power steering, high capacity belt system and extra large tyres ensure easy operation. Throughout, it has heavy-duty components for maximum durability in all conditions, such as its robust auger housing with tie strap auger support, cast iron auger gear box, and cast iron impeller. Features loop handle, heated handle grips, LED headlight, electric starter and industry exclusive hight adjustable handle for comfortable work in all weather conditions.
