PRODUCT BESCHRIJVING

Back Protector made from a polyester knitting with a durable one-sided PU coating with welded seams – a strong yet light and noiseless fabric. The back protector is designed for working positions while operating with a Kettingenaw. The back protector has an extra-long back with a rain lip to help the rain drain at the sides when working in a bended position in the rain. An adjustable snap closure at the front to adjust the width if needed. Approved according to EN343. One size.
